Configurable Experiences

Enabled with Configurable Experiences Right at your Fingertips

CERTIFY provides a plethora of customizable experiences that can be selected and managed from the CERTIFY.me Cloud or from the SnapXT Device. Workflows are configurable by you or your team with just one touch and available at the SnapXT Device level enabling you to provide seamless Customer, Staff, Visitor & Vendor Thermal Scanning experiences, all reporting into the CERTIFY.me Cloud.

Anonymous and Identified Experiences

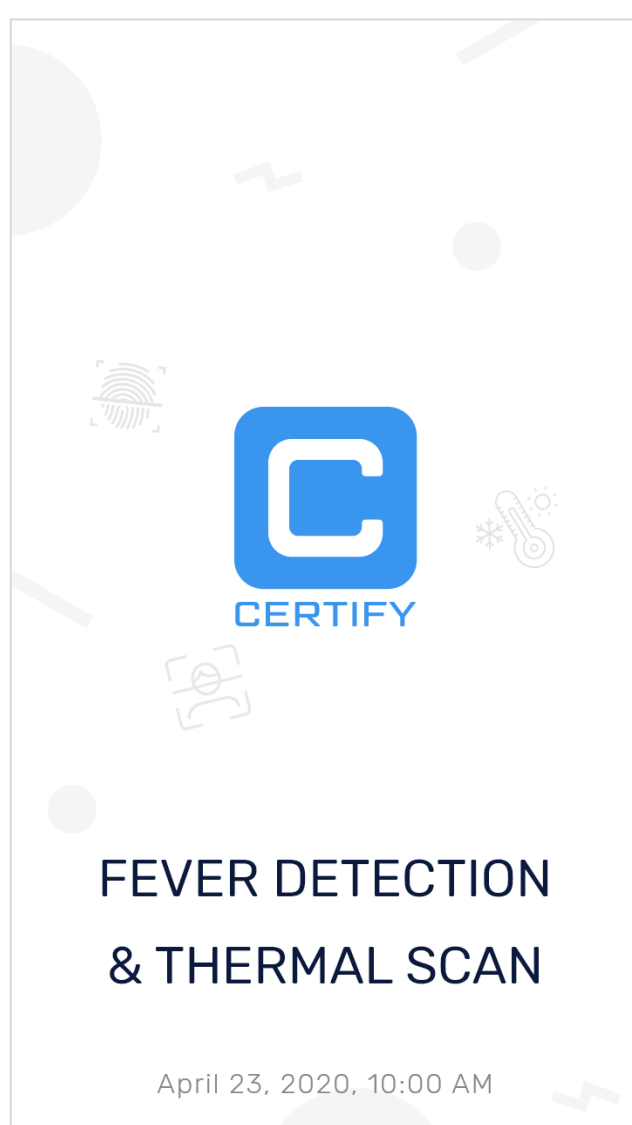

- ✓ **Anonymous:** Thermal Scan, Display Temp, Customized On-Screen Messages
- ✓ **Semi-Anonymous:** Thermal Scan, Display Temp, Customized On-Screen Messages, High-Temperature Image Capture
- ✓ **Identified:** Thermal Scan, Facial Recognition, Anonymous for Individuals Not Recognized, QR Code for Touchless Registration
- ✓ **Identified:** Access Card/NFC/RFID or QR Code Presentment Followed by a Thermal Scan
- ✓ **Touchless:** Touchless Self-Enroll from a Member's own Mobile Device. COVID-19 Compliance followed by Selfie Registration

Touchless COVID-19 Compliance & Reporting

- ✓ **Touchless Registration:** You are enabled with Touchless Registration & COVID-19 Questionnaire Completion & Enforcement.
- ✓ **SMS Link:** You can electronically send a link to your COVID-19 Questionnaire via SMS or Email; links can be provided to Members before or upon arrival at your location.
- ✓ **QR Code:** Members can Scan a QR Code that is printed and on display at your location. The QR Code would link the Member to your COVID-19 Questionnaire.
- ✓ **Web Link:** Members can register right from your website by clicking on a button to access your COVID-19 Questionnaire.
- ✓ **QR Code:** Members can Scan your QR Code that would appear on the SnapXT device after a thermal scan.

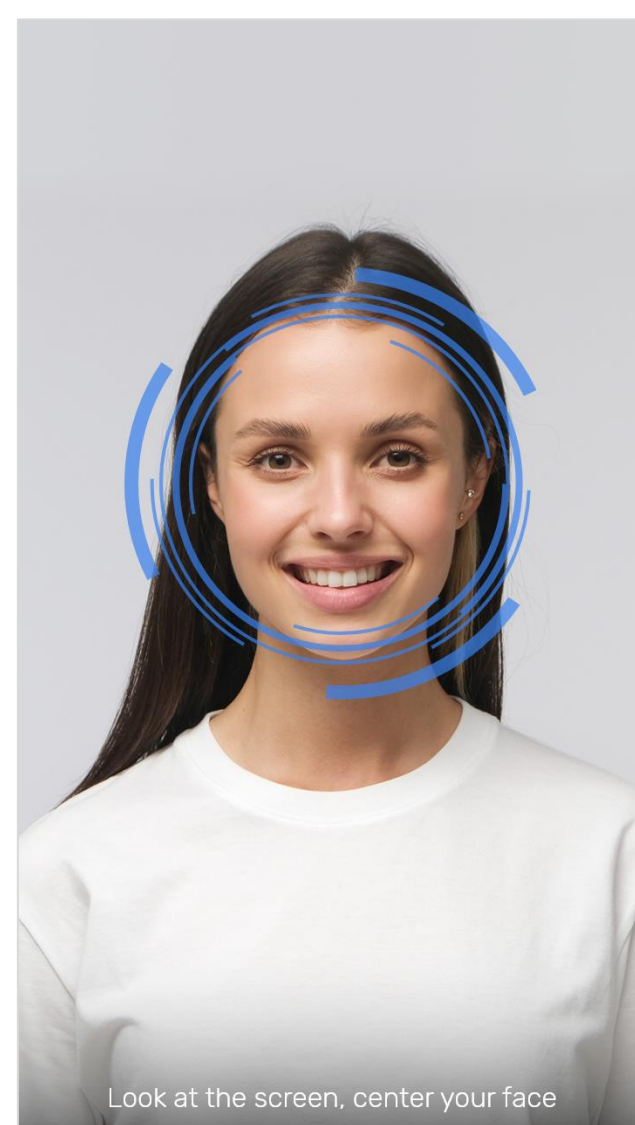

Anonymous Thermal Scan Experience Workflow

Experiences can be customized at the Device level or via the CERTIFY.me Platform. Multiple experience can be customized for an organization, i.e. Visitors, Vendors, Patients & Staff call all have unique workflows depending upon device location & settings with all data feeding into the .me Cloud.

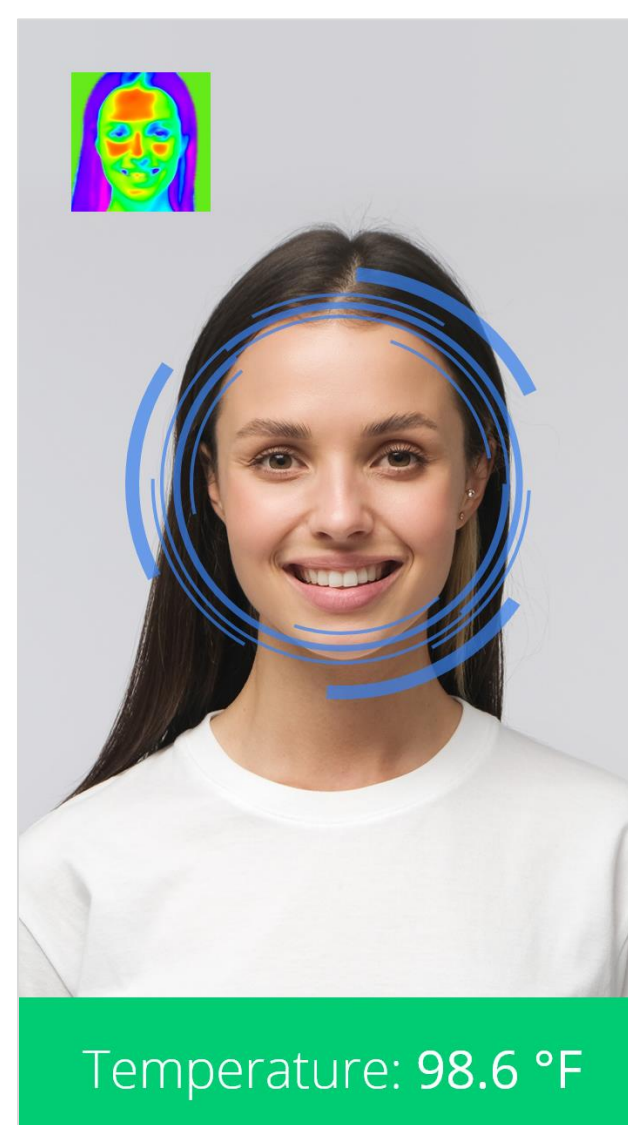

Customizable Landing Page

You can customize the landing page with your logo, date and Initial word Display. This screen can also be defaulted to any language.

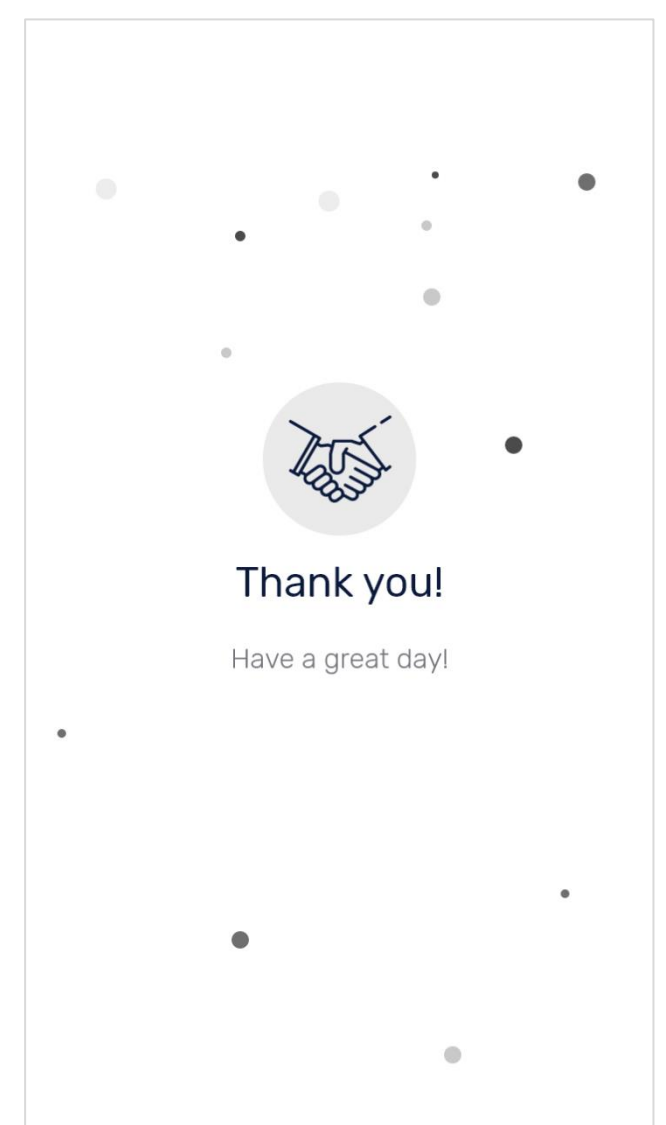

Thermal Scanning

During the Thermal Scanning process, an Individual looks at the spinning circle with the scan taking place in less than one second. The CERTIFY Software defaults to thermal scanning the center of an Individuals Forehead.

Temperature Presentment

An Individuals Temperature (F or C) is presented in less than one second. A Green background is presented for In Range Temperatures and a Red background for a High Temperature.

Customizable Messaging

Post Thermal Presentment, a custom message and logo can be presented to the visitor, vendor, customer, patient or staff member.

CERTIFY SnapXT™

Thermal Scanning & Access Management Terminal

CERTIFY SnapXT™ Technical Specifications

OS	Android
Processor	Dual-Core 1.8GHz+Quad-Core 1.4GHz
Memory	4GB DDR, 16GB eMMC
Display	8-inch, 800*1290
Keys	1 Reset Key
Sensor	Infrared Sensor
Front Camera	Dual Lens Camera (RGB+IR), 2MP+1.3MP
Fill Light	White LED
Contactless Reader	ISO14443 Type A/B, Mifare, ISO 18092 Compliant
SIM Slots	1 SIM (4g)
Communications	Ethernet, WiFi, Bluetooth
Body Temperature Measurement	Precision $\pm 0.3^\circ$, Distance 1ft-6ft
Peripheral Ports	1 DC, 1RJ45, 1 micro USB, 1 Wiegand, 1 RS485
Audio	Dual Audio Speaker, Microphone
Power Supply	12V/2A & POE
Bracket	Wall & Turnstile Mount or Floor or Desk Stands
Dimensions	10.7 in (L) * 5.3 in (W) * 1.2 in (H)
Environmental	Operating Temp: 14°F to 113°F
MDM	Mobile Device Management
Certification	CE

Features & Benefits

Exceptional Performance

- Easy to Implement
- Certified & Secure
- Works Online & Offline
- Real-Time High Temperature Notification
- E-Mail & SMS Notification
- Works Online & Offline
- 1:10,000 Sub Second Face Matching
- Wi-Fi or Ethernet Connections

Unprecedented Reliability

- Part of CERTIFY's Compliant Platform
- 24x7, 365 Live Technical Support
- Plug & Play
- Hosted in Microsoft Azure
- Platform is HIPAA, HiTrust & ISO Compliant
- Customized Android Apps & Workflows
- Plug & Play Installation
- Integrates into Existing Access Control

Temperature Reader

Touchless Temperature Sensor

Multiple Applications

Example Use Cases

Customers

- Touchless Anonymous Customer Temperature Check
- Automatic Front Desk Notification of High Temp
- Self-Enrollment Capable

Staff

- Touchless Staff Check In & Temperature Check
- Reportable, Auditable & Compliant
- Auto Notifications can be Sent for High Temp
- Auto Notifications can be Sent for Missed Temp Screening

Visitors & Vendors

- Touchless Provider Check In & Temperature Check
- Reportable, Auditable & Compliant
- Auto Notifications can be Sent for High Temp
- Auto Notifications can be Sent for Missed Temp Screening

Access Control

- Touchless Thermal Scan & Facial Door Access
- Integrated Turnstile Access
- Integrates into Existing Access Control System

Where We Provide Value

- Healthcare
- Stadiums & Arenas
- Hotels
- Schools
- Offices
- Buildings
- Factories
- Amusement Parks
- Government
- Colleges
- Shopping
- Restaurants
- Supermarkets
- Senior Living
- Quick Serve
- Reopening the World

Stand Selection

Stands Specifically Designed for Your Use Case

WALL MOUNT

**INCLUDED IN PACKAGE PRICE
+ \$49 FOR ADDITIONAL UNITS**

Our durable wall mounted bracket is perfect for front of door or wall placement.

Mount: 8.1 x 6.5 x 3.5 in, Weight: 1.2 lbs

POLE MOUNT

**INCLUDED IN PACKAGE PRICE
+ \$49 FOR ADDITIONAL UNITS**

Our perfectly designed pole mount is perfect for access control gates, buses, trains and built in solutions.

Pole: 8.1 x 6.5 x 3.5 in, Weight: 1.3 lbs

LIGHT UP DESK STAND

+\$59 FROM PACKAGE PRICE

This well constructed light up desk stand is perfect to attract users to the thermal scanning device.

Base: 12 x 12 x 3.5 in, Stand: 9 x 6.4 x 4.7 in, Weight: 7 lbs

LIGHT UP POLE STAND

+\$199 FROM PACKAGE PRICE

This high-end light up pole stand is perfect to attract users to the thermal scanning device.

Pole: 12 x 12 x 45 in, Stand: 9 x 6.4 x 4.7 in, Weight: 18 lbs
